

View Now | Clinical Outcome Assessments: Does one size fit all?

Join C-Path's Rare Disease Cures Accelerator-Data and Analytics Platform and its Rare Disease Clinical Outcome Assessment Consortium executive leaders Alexandre Betourne and Lindsey Murray for this new webinar **Clinical Outcome Assessments: Does one size fit all?**

The graphic features a blue and white color scheme. At the top left are logos for RDCA-DAP (Rare Disease Cures Accelerator Data and Analytics Platform), Critical Path Institute, and NORD. The main title '2023 WEBINAR SERIES' is in a dark blue box, followed by 'CLINICAL OUTCOME ASSESSMENTS' in large bold letters, and 'DOES ONE SIZE FIT ALL?' below it. The date '27 APRIL 2023' and time 'NOON ET' are shown with a clock icon. A 'SAVE THE DATE' button is at the bottom left. Two circular portraits of speakers are on the right: Alexandre Bétourné, PharmD, PhD and Lindsey Murray, PhD, MPH. The background includes a crowd of people and a DNA helix.

The webinar will cover:

- The complexity of identifying appropriate clinical outcome assessments for rare disease clinical trials
- An overview of the Rare Disease Clinical Outcome Assessment Consortium
- The synergies between RDCA-DAP and RD-COAC, and how data aggregation provides opportunities to refine, select and interpret COAs across rare diseases.

When: Apr 27, 2023 | 12 PM ET
