C-Path Welcomes ObvioHealth

C-Path is proud to welcome ObvioHealth, a virtual research organization (VRO), as the newest member of its Electronic Clinical Outcome Assessment (eCOA) Consortium. Comprised of 23 firms that provide electronic data collection technologies and services for capturing patient-reported outcome and other clinical outcome assessment data in clinical trials, eCOA Consortium members collaborate in a pre-competitive environment to support and conduct novel research, design and deliver educational resources, and develop and disseminate best practice recommendations for the electronic collection of clinical outcome data.

Welcome aboard, ObvioHealth!

Learn more about the eCOA Consortium here: https://c-path.org/programs/ecoac
