

View Now: Teaching Patients and Caregivers: The Role of Education in Research and Data Sharing

A promotional graphic for a webinar series. It features a background image of a crowd of people with overlaid digital circuitry. On the left, there are logos for RDCA-DAP (Rare Disease Cures Accelerator Data and Analytics Platform), Critical Path Institute, and NORD. The text '2023 WEBINAR SERIES' is in a bold, dark font. Below it, the title 'TEACHING PATIENTS AND CAREGIVERS: THE ROLE OF EDUCATION IN RESEARCH AND DATA SHARING' is displayed in a larger, bold, dark font. To the left of the title, the date '10 AUG 2023' and time 'NOON ET' are shown with a clock icon. A dark blue button with the text 'REGISTER NOW' is positioned below the date. On the right side, two circular portraits of the speakers are shown: Rebecca Aune, MPH, and Aliza Fink, DSc.

Thursday, August 10, noon ET:

- This webinar will focus on the role of foundational education in research concepts, such as data literacy and the research process, in creating a culture of research participation and data sharing in the rare disease space. Intended for patient advocacy groups and researchers who work with rare disease patients, the webinar will provide knowledge and resources to help patients and caregivers understand and engage in the research process.
