

TRxA 2024 Funding Opportunities

The graphic features a dark blue background with a large, stylized illustration of a hand placing a puzzle piece into a bridge structure. The bridge is composed of white puzzle pieces and spans a blue valley. The text 'Bridging the Drug Development Valley of Death' is written in white within the valley. In the top left corner, the TRxA logo is displayed, consisting of a white stylized 'C' shape followed by the text 'TRxA', 'TRANSLATIONAL THERAPEUTICS ACCELERATOR', and 'CRITICAL PATH INSTITUTE'. At the bottom, the text '2024 RFP Webinar' is written in large white letters, followed by 'January 30, 2024 | 10 AM US ET' in orange. A white button with the text 'VIEW NOW!' is located at the bottom center.

2024 RFP Webinar

January 30, 2024 | 10 AM US ET

VIEW NOW!

TRxA recently hosted a webinar detailing the funding opportunities afforded by TRxA’s BRIDGE Awards.

TRxA’s focus is translating early-stage novel therapeutics into Investigational New Drug (IND) supporting data packages that garner interest for licensing opportunities; we are helping “BRIDGE” (Breakthrough Research and Innovation in Drug Development Grants) the drug development valley of death. Projects eligible for TRxA BRIDGE funding and support include early lead optimization through IND-enabling studies of small molecule therapeutics. Biologics, including natural peptides or antibodies, cell and gene therapy applications, and diagnostic and medical devices are not eligible at this time; nor are drug repurposing initiatives.
