

Third Annual CPP Member Meeting 2018

The third annual CPP Member Meeting (June 6-7, 2018 in London, UK) provided a face-to-face forum for industry, regulators, academic experts and advocacy organizations to collaborate towards the development of Parkinson's disease therapies. This meeting provided a unique opportunity for stakeholders to celebrate the successes of the consortium to date and align on future options for innovative research with a focus on data sharing, data integration and regulatory science.
