

Klaus Romero, MD, MS

Klaus Romero MD, MS, FCP is a clinical pharmacologist and epidemiologist by training, with 17 years combined experience in clinical research. Dr. Romero has been with C-Path since December of 2007, and during his tenure, he established C-Path's Quantitative Medicine Program, which has led clinical pharmacology, pharmacoepidemiology and modeling and simulation projects in Alzheimer's disease, polycystic kidney disease, tuberculosis, type 1 diabetes, Parkinson's disease, Duchenne muscular dystrophy, kidney transplantation and Huntington's disease, achieving major milestones such as the first regulatory endorsement by FDA and EMA of a clinical trial simulation tool for mild and moderate Alzheimer's Disease and the qualification of an imaging prognostic biomarker for PKD. He is a fellow of the American College of Clinical Pharmacology and the American Society for Clinical Pharmacology and Therapeutics, as well as a founding member of the International Society of Pharmacometrics.
