

Applying Regulatory Science to Neonates: Second Annual Scientific Workshop at European Medicines Agency (EMA)

Date: September 12-13, 2016

Location: European Medicines Agency, Canary Wharf, London

Sponsors: Critical Path Institute and European Medicines Agency

The International Neonatal Consortium (INC) organized a two day workshop at the European Medicines Agency (EMA) on September 12-13, 2016. Focused on applying regulatory science to neonates, INC members explored approaches that family and neonatal nursing organizations can take to embrace a research culture. Workshop participants also provided an update on INC's progress in the first year and identified additional initiatives to accelerate the development of safe and effective therapies for neonates.

The workshop was free and open to the public.

The proceedings from this meeting can be viewed [here](#).
