January 21, 2021 | 5:00 p.m. – 6:30 p.m. CET
Data Sharing and Analysis to Support Rare Disease Drug Development

The European infrastructure for translational medicine, EATRIS, has invited the Rare Disease Cures Accelerator-Data and Analytics Platform team to present as part of its webinar series, EATx, to introduce RDCA-DAP to the European academic and industry audience. The webinar will discuss how RDCA-DAP works with European entities and how data sharing within Europe, and between Europe and other countries, can be achieved with RDCA-DAP.
