
CRDSA Secondary Use Data Sharing Webinar

Please join the Clinical Research Data Sharing Alliance on Thursday, April 20, for “Secondary Use Data: What do Researchers Need?”

This one-hour webinar will report findings from a comprehensive survey of biopharma and academic researchers, discuss the implications, and explore how common standards can accelerate the reuse of clinical trial data.

The webinar is designed for:

- **Researchers:** Learn what information, IPD datasets, and supporting documents you need to make effective use of secondary clinical research data.
- **Data Contributors:** Identify ways to maximize your return on investment in internal data reuse and external data sharing by ensuring end-user research value.
