

Rare Disease COA Consortium Announces Publication of Open Access Article

C-Path's [Rare Disease COA Consortium](#) is pleased to announce that “Approaches to the Assessment of Clinical Benefit of Treatments for Conditions That Have Heterogeneous Symptoms and Impacts: Potential Applications in Rare Disease” was published online in the April 2023 issue of *Value in Health*. This publication identifies assessment approaches used in clinical trials to address heterogeneous manifestations that could be relevant in rare disease research and Food and Drug Administration-approved labeling claims that used these approaches.
