

View Now: GUIDs and De-Identification Tools for Rare Diseases

C-Path's Rare Disease Cures Accelerator-Data and Analytics Platform is pleased to present this new webinar, GUIDs and De-Identification Tools for Rare Diseases, led by CuresDev CEO Sanath Kumar Ramesh. The webinar will discuss the need for rare disease communities to adopt common GUIDs and why this helps maximize the use of patient data integrated in RDCA-DAP. It will provide an overview of the de-identification solutions available to foundations and registries.
