

IDWeek 2023

Hosted in Boston, Mass. from October 11-15, IDWeek is the joint annual meeting of the Infectious Diseases Society of America (IDSA), Society for Healthcare Epidemiology of America (SHEA), the HIV Medicine Association (HIVMA), the Pediatric Infectious Diseases Society (PIDS), and the Society of Infectious Diseases Pharmacists (SIDP). CURE ID will have a booth to visit, while both CURE ID and CDRC will have multiple abstracts presented.

Abstracts include: The landscape of infections caused by rare bacterial pathogens, Landscape Analysis to Identify Effective Drug Repurposing Candidates for the Treatment of Implantation Mycoses: Comparison of World Health Organization Survey Treatment Data and Published Case Reports on CURE ID, and The Lesser Known Treponemal Infections: A Review of Non-Syphilitic Cases.
