

NIDDK Central Repository 20th Anniversary Workshop: Promoting Secondary Research to Accelerate Medical Breakthroughs and Innovation

The National Institute of Diabetes and Digestive Kidney Diseases (NIDDK) workshop highlights secondary use research that utilized resources generated from NIDDK-funded clinical research projects. The event also offers a review of NIDDK's Data Ecosystem past, present, and future and launches a data challenge platform as part of the program's vision for the future. C-Path's T1D Executive Director Joe Hedrick will be a presenter at this event, where he will talk about C-Path's involvement in diabetes and digestive kidney diseases, as well as offer background about the organization as a whole.
