
Patient Engagement Webinar Hosted by SFA

We are cordially inviting you to our Patient Engagement Webinar

Hosted by:
Brandi Felser, SFA CEO

Take Part in this Sarcoma Patient Partnered Research Webinar

Our goal is to better understand the current therapies being used for rare and ultra-rare sarcomas.

Presented By:

Marco Schito, PhD

Executive Director of C-Path's CURE Drug Repurposing Collaboratory (CDRC)

William D. Tap, MD

Chief of the Sarcoma Medical Oncology Service at Memorial Sloan Kettering Cancer Center

Memorial Sloan Kettering Cancer Center

Tim Stuhlmiller, PhD

VP of Scientific and Medical Affairs

Lennie Woods

Executive Director and co-founder of the Clear Cell Sarcoma Foundation (formerly Sara's Cure)

DATE

January 18th
1:00 – 2:30 EST

LOCATION

This will be a virtual webinar

Registration

PARTNERS & COLLABORATORS

Join Us for a Groundbreaking Patient Engagement Webinar Hosted by SFA

Sarcoma Foundation of America is dedicated to fostering the development of innovative treatment options for those affected by sarcoma. In collaboration with the esteemed CDRC Sarcoma Task Force, we are excited to present a pioneering project that delves into the potential of repurposing existing medications for the benefit of sarcoma patients. This initiative is at the forefront of leveraging real-world data—from electronic medical records to invaluable insights shared by patients and their healthcare providers. The goal is to illuminate the path to cost-effective treatments, harnessing the power of existing drugs that, while proven safe, require further evidence to support their novel application in sarcoma therapy. Be Part of the Change: Your involvement is crucial in propelling this research forward, paving the way for new, accessible treatment avenues for the sarcoma community.
