

Join C-Path at DIA Global 2024

Coming up in June, C-Path is headed to DIA 2024 in San Diego! In four featured presentations from our world class-team of experts, discover how C-Path drives innovation and removes bottlenecks in the drug development process:

Monday, June 17

- 12:15pm – 2:15pm
 - [Extracting Lab Value Reference Ranges from Real World Neonatal ICU Data](#)
 - Poster: Nicholas Henscheid, Senior Scientist

Wednesday, June 19

- 8:00am – 9:00am
 - [Synergizing Large Language Models and Digital Health Technology for Healthcare Transformation](#)
 - Chair: [Jagdeep Podichetty](#), Senior Director of Predictive Analytics
- 1:15pm – 2:15pm
 - [Regulatory Considerations in Trial Design for Cell and Gene Therapies](#)
 - Chair: [Kanwaljit Singh](#), Executive Director, International Neonatal Consortium
- 3:15pm – 4:15pm
 - [Harnessing the Power of Artificial Intelligence \(AI\) in Clinical Research From Knowledge Graphs to Generative AI](#)
 - Panelist: Ramona Lynn Walls, PhD, Executive Director of Data Science

Throughout the event, visit **Booth 1942** to engage with our team. Learn how our innovative approaches de-risk and **accelerate global drug development**, backed by 20 years of success, convene and facilitate patient and regulatory cross-talk in our **neutral, nonprofit ecosystem, and** deliver innovative, regulatory-supported solutions that positively **impact patients' lives in areas of unmet need.**
