

2025 CRDSA Summit Recordings Available

Featuring a keynote address by C-Path CEO Klaus Romero, the first day of the CRDSA summit explored the current state of patient data reuse in the regulatory approval process. Learn why responsible data reuse is a critical tool in future trial design, how the totality of evidence can inform the drug development process, and what's needed to meet regulatory use challenges.

The Clinical Research Data Sharing Alliance Hosts an international summit featuring experts throughout the Bio-Medical Data field. Guests included Klaus, Virginia Nido, Pierre Theodore, Veronica Miller and Mwango Kashoki.
