WHO WE ARE

The Electronic Clinical Outcome Assessment (eCOA) Consortium was established by Critical Path Institute (C-Path) in 2011 as the ePRO Consortium. Along with C-Path, the members of the eCOA Consortium are firms that provide electronic data collection technologies and services for capturing patient-reported outcome (PRO) and other clinical outcome assessment (COA) data in clinical trials.

OUR MISSION

The eCOA Consortium's mission is to advance the science of clinical trial endpoint assessment by collaboratively supporting and conducting research, designing and delivering educational opportunities, and developing and disseminating best practice recommendations for electronic collection of clinical outcome data.

CLARIO.

eCOA: Getting Better Together Initiative

What: An ongoing collaborative, pre-competitive initiative among C-Path, clinical trial sponsors from the PRO Consortium, eCOA providers and CROs from the eCOA Consortium, and FDA

• Identify and address the root cause of issues with eCOA

implementation in clinical trials

• An aligned eCOA Lexicon for use by stakeholders across the eCOA ecosystem • eCOA: Process/Workflow and Roles/Responsibilities

• Defines an eCOA process and workflow that aligns expectations for successful eCOA strategy development and deployment and clarifies roles and responsibilities

• This podcast discusses the use of bring your own device (BYOD) approaches for the collection of eCOA data in clinical trials.

HOW WE DO IT

The eCOA Consortium provides a pre-competitive environment in which leading industry experts can collaborate to develop specification documents and data standards, provide guidelines on methodological considerations related to eCOA applications, and generate measurement equivalence data.
