launched its first project, "Leveraging the EPIS framework to extract real-world data from the electronic health record," at the 16th Annual D&I Conference, on December 10-13, 2023 in Arlington, VA. In a quick chat during the event, CURE Drug Repurposing Collaboratory (CDRC) Scientific Director, Smith Heavner, PhD, discussed the importance of electronic medical record extraction for drug repurposing, the importance of translational science and medicine and more. A Q&A session followed the talk.

The platform enables healthcare providers, patients, and care partners to share

Our Impact stories share the value and impact C-Path’s and CDRC’s work brings to

patients, patient organizations, drug developers, the academic community, regulators

/etc.
