In a further effort to extend our reach and visibility, a series of interviews was recorded by more than 100 patients, researchers, clinicians, and biopharmaceutical company representatives, regulatory reviewers, and scientists. A three-day annual meeting was held, April 18-20, in Crystal City, VA. The event, hosted by CURE ID and CDRC, featured expert presentations, panel discussions, keynote speakers, and was attended by more than 100 patients, researchers, clinicians, and biopharmaceutical company representatives.

This is a competitive opportunity to bring on more followers, tweets, discussion posts, and email subscribers. If interested, please feel free to get involved with the CURE ID platform (see our Code of Conduct). If you have any questions or concerns, please feel free to contact us at curesupport@nih.gov.

The following are examples of our Impact stories that share the value and impact C-Path's and CDRC's work bring to our clients:

1. *Redefining Clostridioides difficile infection antibiotic response and clinical patient-reported outcome (PRO) measures in cancer clinical trials.*
2. *Clinical Outcome Assessment in Cancer Clinical Trials (COA-CCT) 8th annual workshop. Each year, the COA-CCT workshop provides a forum for collaborative work on patient-reported outcomes.*
3. *The U.S. Food and Drug Administration (FDA) Oncology Center of Excellence Trials Workshop.*
4. *COA-CCT 8th annual workshop. Each year, the COA-CCT workshop provides a forum for collaborative work on patient-reported outcomes.*
5. *A Prospective Observational Study of Human Papillomavirus Vaccination.*
7. *Variant: A Prospective Observational Study of the WHO Survey on the Use of Cures Online for the Treatment of Subcutaneous or Implantation Mycoses.*
9. *Clinical Outcome Assessment in Cancer Clinical Trials (COA-CCT) 8th annual workshop. Each year, the COA-CCT workshop provides a forum for collaborative work on patient-reported outcomes.*
10. *COA-CCT 8th annual workshop. Each year, the COA-CCT workshop provides a forum for collaborative work on patient-reported outcomes.*
11. *SARC Semiannual Meeting.*
12. *SARC Semiannual Meeting.*
14. *Clinical Outcome Assessment in Cancer Clinical Trials (COA-CCT) 8th annual workshop. Each year, the COA-CCT workshop provides a forum for collaborative work on patient-reported outcomes.*
15. *COA-CCT 8th annual workshop. Each year, the COA-CCT workshop provides a forum for collaborative work on patient-reported outcomes.*
16. *SARC Semiannual Meeting.*
17. *SARC Semiannual Meeting.*
19. *Clinical Outcome Assessment in Cancer Clinical Trials (COA-CCT) 8th annual workshop. Each year, the COA-CCT workshop provides a forum for collaborative work on patient-reported outcomes.*
20. *COA-CCT 8th annual workshop. Each year, the COA-CCT workshop provides a forum for collaborative work on patient-reported outcomes.*

**Getting Involved**:
- **Joining the CDRC**: Joining the CDRC provides a forum for presenting novel insights based on the past and ongoing research and education. CDRC Members, Marco Schito and Chandler Birch will be in attendance at the ASCO Annual Meeting June 25-29, 2023, Boston, MA.
- **Biomarker Development and Application Workshops**: The COA-CCT workshop provides a forum for collaborative work on patient-reported outcomes. Each year, the workshop provides a forum for collaborative work on patient-reported outcomes.

**Upcoming Events**:
- **June 25-29, 2023, Boston, MA**: The 2023 ASCO Annual Meeting is your all-access guide to the latest research and education. CDRC Members, Marco Schito and Chandler Birch will be in attendance at this event.
- **June 14th-15th, COPENHAGEN**: The CeBIL symposium: Sustainable health innovation, grand challenges & the law provides a forum for collaborative work on patient-reported outcomes.
- **June 13-14, 2023, virtually**: The FDA Science Forum will be held virtually on June 13 from 9 a.m. to 3:30 p.m. The forum provides a forum for collaborative work on patient-reported outcomes.
- **June 5th-8th, 2023**: The 5th Annual ASCO - C-Path Conference focuses on emerging research areas to address the Grand Challenges of Cancer Care. Marco Schito will be presenting at this event!

**Important Updates**:
- **Publication of results of the WHO Survey on the Use of Cures Online for the Treatment of Subcutaneous or Implantation Mycoses**: The online survey was designed as part of a WHO collaborative project with the United States Food and Drug Administration (USFDA) to identify priority disease areas for pilot testing in CURE ID, a platform that enables healthcare providers to share their real-world experiences in treating patients with repurposed drugs. We currently have 20 social media ambassadors and looking to expand. If interested, please feel free to get involved with the CURE ID platform (see our Code of Conduct).
