leaders in advancing quality improvement efforts and the field of nursing research. Gain insights into the critical role of nurse leadership, and discover how nurses are leveraging real-world data and engaging in research to improve patient care. [Image]

**Vaccine Dose in Patients With High-Risk Cardiovascular Disease: Secondary Analysis Using the RENAISSANCE, RECOVER-ICU, and RE-ICU Studies**

**November 15th- 18th, Brazil**

**21st INFOCUS**

- **Program Highlights:**
  - The 21st INFOCUS program is designed to bring together the latest advancements and discussions in various disciplines.
  - Key areas covered include data science, patient engagement, and public health strategies.

- **Special Features:**
  - **Infectious Diseases:**
    - Focus on latest research and developments in infectious diseases.
  - **Data Science:**
    - Session on harnessing big data for public health initiatives.

- **Registration:**
  - Early bird registration offers significant savings.
  - Access to exclusive networking opportunities.

**Connective Tissue Oncology Society (CTOS) Annual Meeting**

- **Focus:**
  - Connective tissue tumors
  - Basic and clinical research

- **Objectives:**
  - To advance the care of patients with connective tissue tumors
  - To increase knowledge of these tumors

- **Features:**
  - **Scientific Program:**
    - Sessions on the biology, diagnosis, and treatment of connective tissue tumors.
  - **Exhibitors:**
    - Opportunities to network with leading companies.

**American Society of Tropical Medicine and Hygiene (ASTMH) Annual Meeting**

- **Focus:**
  - Tropical medicine
  - Infections in clinical practice

- **Objectives:**
  - To provide an educational platform for healthcare professionals.

- **Features:**
  - **Scientific Program:**
    - Panels and workshops on tropical medicine.
  - **Registration:**
    - Early registration benefits.

**Critical Connections | SCCM**

- **Focus:**
  - Critical care
  - EHRs and global registries

- **Objectives:**
  - To leverage data for critical care improvements.

- **Features:**
  - **Podcast:**
    - Interviews with Smith Heavner, PhD, RN.
  - **Special Sections:**
    - Translational science
    - Rare disease advocacy

**Health Research Alliance (HRA)**

- **Focus:**
  - Research collaboration
  - Impact stories

- **Objectives:**
  - To foster productive discussions and collaborative solutions.

- **Features:**
  - **HRA Members Meeting:**
    - Key stakeholders from various sectors.
  - **NORD Conference:**
    - Rare disease advocates.

**National Organization for Rare Disorders (NORD)**

- **Focus:**
  - Rare diseases
  - Advocacy

- **Objectives:**
  - To promote awareness and support for rare diseases.

- **Features:**
  - **Conference:**
    - Sessions on treatments, research, and policy.
  - **Swag:**
    - Opportunities for attendees to engage.

**CDRC Annual Meeting**

- **Focus:**
  - COVID-19 and beyond
  - Drug repurposing

- **Objectives:**
  - To explore drug repurposing beyond COVID-19.

- **Features:**
  - **Panel Discussions:**
    - Expert insights on drug repurposing.
  - **Webinars:**
    - Opportunities for learning.

**CURE ID**

- **Focus:**
  - Drug repurposing
  - Rare diseases

- **Objectives:**
  - To promote drug repurposing and rare disease advocacy.

- **Features:**
  - **Podcast:**
    - Interviews with Dr. Smith Heavner.
  - **Swag:**
    - Incentives for attendees.

**C-Path and the U.S. Food and Drug Administration (FDA)**

- **Focus:**
  - Drug repurposing
  - Clinical trials

- **Objectives:**
  - To advance the drug development process.

- **Features:**
  - **Partner Program:**
    - Opportunities for engagement.
  - **Swag:**
    - Promotional items for participants.
