STEP 1

Start with some key messages or share your own:

Are you a **SPEAKER** at a relevant event? Here is one way you can spotlight your participation and amplify INC's impact.

@CriticalPathInstitute's International Neonatal Consortium accelerates the development of safe and effective therapies for preemies by engaging the global community, including **Regulators**. Find out more about how INC spurs collaboration to address neonatal needs: <https://c-path.org/inc/>

Bringing together the neonatal community to share data, knowledge, and expertise, **@CriticalPathInstitute's** International Neonatal Consortium advances medical innovation and regulatory science for this underserved population. Find out more about how INC spurs collaboration to address neonatal needs, go to: <https://c-path.org/inc>

@CriticalPathInstitute's International Neonatal Consortium Neonatal Adverse Event Severity Scale provides infant specific language, common to all those in the care of neonates to better define the severity of an adverse event. Find out more about how INC spurs collaboration to address neonatal needs: <https://c-path.org/inc>

I'm proud to be speaking at **<event name>** this year and plan to highlight the important role **@CriticalPathInstitute's** International Neonatal Consortium plays in understanding adverse events in neonates. Learn more: <https://c-path.org/inc/>

@CriticalPathInstitute's International Neonatal Consortium Neonatal Adverse Event Severity Scale emphasizes that neonates are unique when clinical care is concerned and infant-specific descriptors of neonatal morbidity can help to differentiate disease and intervention-related events. To find out more about how INC brings together stakeholders to address neonatal need go to: <https://c-path.org/inc>

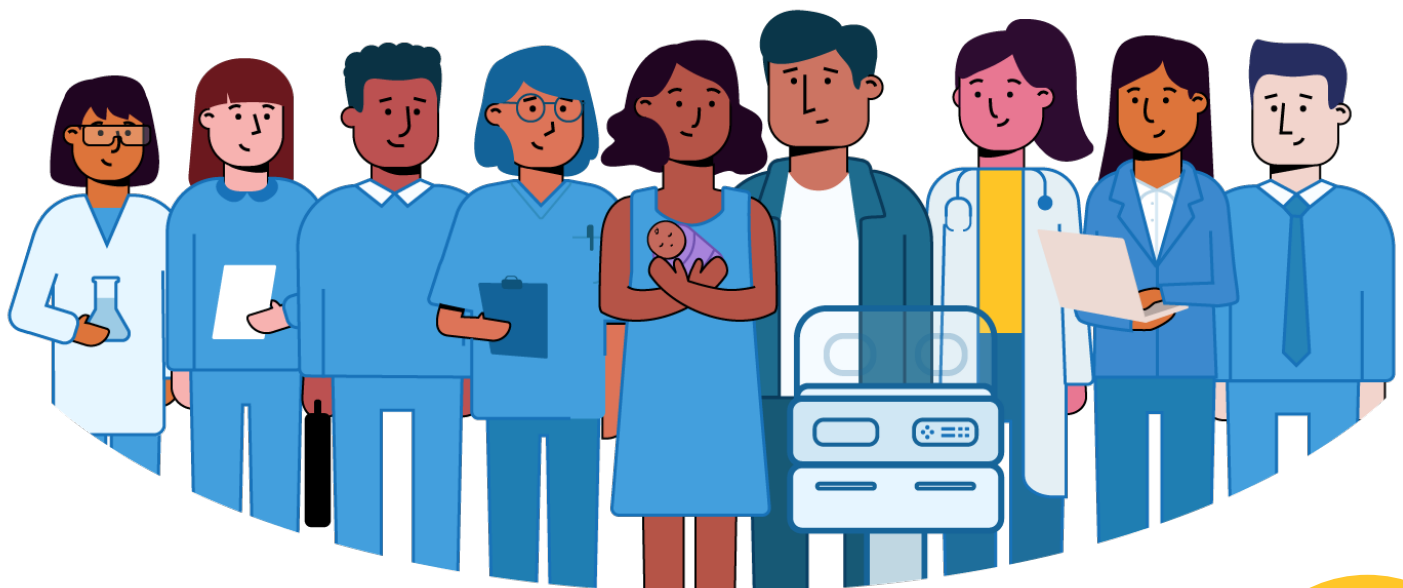

The **@CPathInstitute** International Neonatal Consortium accelerates the development of safe and effective therapies for preemies by engaging the global community and spurring collaboration to address neonatal needs. <https://c-path.org/inc/>

Bringing together the neonatal community to share data, knowledge and expertise is what **@CPathInstitute** International Neonatal Consortium is all about. More on how INC spurs collaboration to address neonatal needs: <https://c-path.org/inc>

@CPathInstitute International Neonatal Consortium Neonatal Adverse Event Severity Scale provides infant specific language, common to all those in the care of neonates to better define the severity of an adverse event. More at <https://c-path.org/inc>.

I'm proud to be speaking at **<event tag>** this year and plan to highlight the important role **@CPathInstitute** International Neonatal Consortium plays in understanding adverse events in neonates. Learn more: <https://c-path.org/inc/>

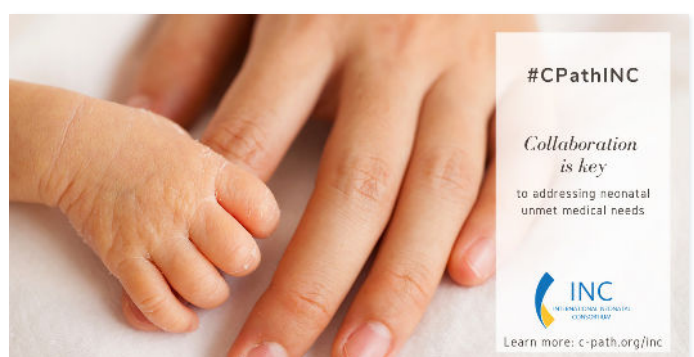

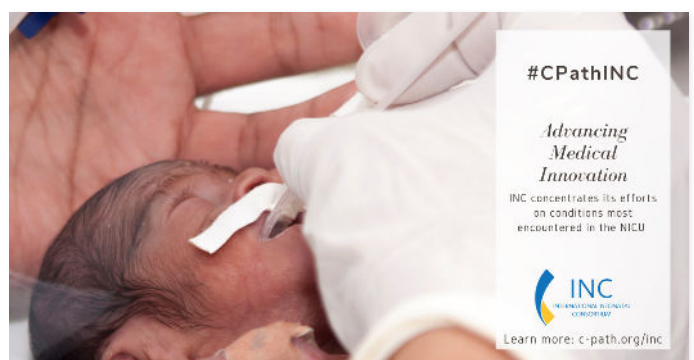

@CPathInstitute International Neonatal Consortium Neonatal Adverse Event Severity Scale emphasizes neonates clinical care is unique + infant-specific descriptors of neonatal morbidity help differentiate disease + intervention-related events. <https://c-path.org/inc>
